

Domestic Fundamentals:

- Mixed sentiments were seen in guar pot market today with price rising in some market while declining on the others.
- In Haryana, arrivals of guar seed decreasing as farmers are now start bringing wheat in the markets.
- Guar prices seems to test Rs 5200 and then 5500 soon considering lower stock in demat and lower arrivals in mandis. It is notable that punters collect guar stocks at lower rates and now play speculation in guar seed.
- In the first fortnight of April month, India has exported 13525 tons of guar products (Meal, Splits, and Powder) which is 5% less compared to guar products exported last month in the first fortnight. Out of total 13525 tons of guar products, 9354 tons of powder, 940 tons of splits and 3231.6 tons of meal exported from India in the first fortnight of April month.
- In the first week of April 2015, guar exports improved to 7267.5 tons compared to 6862 tons exported in the prior week.

Outlook: Guar price shows bullishness in the coming weeks considering lower stock in demat and weak arrivals in key markets. In addition to it, heavy speculation by punters would also take the prices up.
