

Domestic Fundamentals:

- Guar prices surged sharply today due to speculative activities by punters.
- Weather forecasters are expecting less rainfall or dry spell in next month which will likely support the prices of guar seed in the coming month.
- Lower arrivals and moderate demand of guar seed and gum led the prices recover from previous lows.
- India has exported 4505 tons of guar gum in the first week of June which is 6% higher compared to prior week.
- India has exported 29088 tons of Guar Products (Gum, Splits & Meal) in the month of May 2015 which is lower export figures compared to last year. Out of the total guar exports, 5243 tons of Guar gum, 4042 tons of Splits and 22689 tons of Guar splits exported in May 2015. Notably, recent month guar exports fell by 40% compared to last year same period guar exports.
- Notably guar seed prices moves downwards in the month of June and July traditionally which also gives a clear idea that prices should move downwards.

Outlook: Guar price recovers after heavy decline in prices in last couple of weeks. Forecasts of less rainfall in the next month by various weather agencies support the market.
