

Domestic Fundamentals:

- Mixed sentiments recorded in key guar spot markets on Wednesday as markets couldn't find adequate cues to decide the prices either side.
- Guar seed crop damaged much higher than estimated previously due to weak rainfall and white pest attack which ultimately reduced yield of guar seed.
- Weekly arrivals of guar seed declined sharply in key markets like Bikaner, Adampur which curb any decline in guar seed prices despite of low demand.
- India has exported 11246 tons of guar gum powder which is 69% down compared to prior year.
- Arrivals are still not up to mark due to damaged crop and delay in arrivals which support the prices of guar seed and gum.
- In a guar conference held in Bikaner, Traders are expecting 15-17 lac tons of guar seed production with an opening stock of 8 lac tons for 2015-16 marketing year

Outlook: Guar price likely to move up in the coming days due to delay in arrivals.
