

Domestic Fundamentals:

- Most of the guar markets closed today due to festival.
- Guar seed prices are likely to move up in the coming week due to good demand from local industries at lower levels. Also, we expect surge in crude oil prices in the coming weeks also curb any major decline in guar seed.
- In the last week of October 2015, India has exported 4874 tons of guar gum powder, 744 tons of guar splits and 1380 tons of guar meal.
- Latest week export figure took the October month export to 21816 tons of guar products. Out of the total guar exports, 13106 tons of Guar gum, 3404 tons of Splits and 5306 tons of Guar meals exported in October 2015. Last year India exported 33867 tons of Guar products at the same period.
- Out of total 80 installed guar mills, only 25 mills running currently in Haryana as reported. Lack of guar seed arrivals due to lower crop and lower prices restrict farmers to bring there crop in volumes in the markets.
- Only 1 out of 5 mills of guar gum reportedly started their operations in Alwar region at present. Sluggish demand of gum from overseas spread bearish sentiments among millers.

Outlook: Guar price likely to move in a range in the coming days due to delay in arrivals and weak demand.
