

Domestic Fundamentals:

- Prices continue its bearish tone due to weak support from spot markets. However, arrivals are continuously declining due to lower prices.
- Retail investors are not finding guar seed market lucrative and avoid online trading platform these days which curb punters to do speculation in prices as reported.
- Millers and stockists will not able to obtain guar seed stock in the coming days due to expected lower arrivals of guar seed in major markets due to lower rates and arrivals of mustard seed. Millers and punters should then artificially depress the guar seed prices creating panic in the market to obtain guar seed from short term stockists and farmers.
- Around 20000-25000 bags arriving in all India guar seed markets as reported.
- India export 3853 tons of guar gum powder in the first week of February which is 33% lower compared to prior week. Weak demand from overseas led the export down for guar gum powder.
- India likely to export 10.45 lac tons of guar gum powder and split (equivalent of guar seed) in 2015-16 as per an estimate by Agriwatch. India already exported 2.86 lac tons of guar gum powder and split from the period Oct-Jan 2015-16.

Outlook: Guar prices are continue its range bound movement due to weak demand which offset the impact of lower arrivals in the markets.
