

**Domestic Fundamentals:**

- *Mixed sentiments reported in spot market on Thursday amid higher arrivals.*
- *According to IBIS (provisional data), export of guar seed products (Guar Powder, Split and Meal) in the week (13-19 June) was around 7761 metric tonnes compared to 6219 in the week (06-12 June). The exports of guar meal and guar gum powder are up by 16.9% and 36% respectively, whereas exports of guar split are down by 6% as compared to last week.*
- *Sowing of guar has been delayed by two weeks due to late monsoon. Furthermore sowing has not even started in Gujarat and Rajasthan. According to forecast by IMD monsoon will arrive next week in Gujarat as well as Rajasthan which will facilitate guar sowing. Crop shifting from guar as well as increase or decrease in area will depend upon rainfall in next ten days.*
- *According to trade sources, overall guar acreage is expected to fall by 10 to 15% as farmers in Bikaner and Sri Ganganagar are likely to maintain their last year guar acreage with minor shifts to other crops. Whereas other states such as Haryana, Gujarat and Madhya Pradesh are seeing major shifts from guar to other remunerative crops such as Cotton, Moong and Moth. Thus decline in area and production of guar would support the price in cash and future markets.*
- *With increasing price as well as production of crude oil in global market, export demand for guar gum is expected to increase as it is used in hydraulic fracturing. USA, a major export destination for guar gum from India, has shown an increase in number of oil rigs drilling for oil by 10 to 424 compared to last week. Increase in export of guar gum from India will also lend support to domestic guar seed cash market.*
- *According to IBIS (provisional data) for second week of June, Export of all guar seed products i.e. powder, Split and meal has decreased marginally compared to last week. India has exported 3762 metric tonnes of guar gum powder, 1000 metric tonnes of guar split at an average fob of \$828.7/tonne and 1457 metric tonnes of guar meal at an average fob of \$562.81/tonne. The main countries to which guar seed products were exported are USA, Germany, China, Russia and Norway*
- *The wholesale price index of guar seed has fallen marginally from 237.2 in April 2016 to 236.2 in May 2016. The WPI for May 2016 is down by 103.2 as compared to last year for the same month and by 129.6 as compared to May 2014.*
- *According to IBIS (provisional data) for May, Export of guar seed products i.e. powder, Split and meal has fallen by 1140.25 metric tonnes as compared to last month. India has exported 12815.2 metric tonnes of guar gum powder, 3811 metric tonnes of guar split and 5452.79 metric tonnes of guar meal in the month of May.*

- According to the ministry of commerce and industry, guar gum worth Rs 234.17 crores has been exported in the month of April for financial year 2016-17 as compared to Rs 373.02 crores in financial year 2015-16 for the same month. Guar gum is used in hydraulic fracturing for extracting oil and gas, therefore as the prices of crude oil crashed demand for guar gum also declined.

**Outlook:** Prices are likely to move from range bound to firm in coming weeks.
