

**Domestic Fundamentals:**

- *Mostly firm sentiments reported in spot market on Wednesday amid lower arrivals.*
- *According to trade sources, area of guar in Anoopgarh is expected to fall by 45% as farmers are shifting to other remunerative crops like pulses and kapas. Approximately 1.25 lakh quintals of guar stock are available in Anoopgarh, major share of which was bought in range of Rs 3500-5000. Therefore, if prices increase beyond 3500 stockiest may release their stock which will put cap on prices.*
- *According to IBIS (provisional data) for the month of June, Export of guar seed products i.e. powder, Split and meal has increased by 8085.91 metric tonnes as compared to last month. India has exported 18999.38 metric tonnes of guar gum powder, 4500 metric tonnes of guar split and 6665.54 metric tonnes of guar meal in the month of June.*
- *According to IBIS (provisional data), Total guar seed products export from India for the week (20-26 June'16) was 7381.47 tonnes. Out of the total around 3407.8 tonnes was exported from Mundra Port, 1303.3 tonnes from Jodhpur concor ICD and 1209 tonnes from Jodhpur Thar ICD. Whereas last week (13-19 June'16) 3540 tonnes was exported from Mundra Port, 1713 tonnes from Jodhpur concor ICD and 1477 tonnes from Jodhpur Thar ICD.*
- *Farmers in Sri Ganganagar are shifting their guar area to other remunerative crops like Arhar and Moong as their cost of cultivation for guar in one acre is around Rs 5000 and they are able to get a return of around Rs 3000 only. Therefore, guar acreage is likely to fall by 50% compared to last year in Sri Ganganagar. Last year total area in Rajasthan was around 47.86 Lakh hectare and we expect that approx 43 lakh hectare will be sown under Guar in 2016-17.*
- *According to IBIS (provisional data) for 20-26 June'16, Export of guar meal has increased whereas guar gum powder and guar split has decreased compared to last week. India has exported 4759 metric tonnes of guar gum powder at an average fob of \$1264/tonne, 900 metric tonnes of guar split at an average fob of \$851.27/tonne and 1722 metric tonnes of guar meal at an average fob of \$526.1/tonne.*
- *According to IBIS (provisional data), export of guar seed products (Guar Powder, Split and Meal) in the week (20-26 June) was around 7381 metric tonnes compared to 7761 in the week(13-19 June). The exports of guar meal are up by 1.06%, whereas exports of guar split and guar gum powder are down by 4.26% and 7% respectively compared to last week.*
- *According to trade sources, overall guar acreage is expected to fall by 10 to 15% as farmers in Bikaner and Sri Ganganagar are likely to maintain their last year guar acreage with minor shifts to other crops. Whereas other states such as Haryana, Gujarat and Madhya Pradesh are seeing major shifts from guar to other remunerative crops such as Cotton, Moong and Moth. Thus decline in area and production of guar would support the price in cash and future markets.*

- The wholesale price index of guar seed has fallen marginally from 237.2 in April 2016 to 236.2 in May 2016. The WPI for May 2016 is down by 103.2 as compared to last year for the same month and by 129.6 as compared to May 2014.

**Outlook:** Prices are likely to move from range bound to firm in coming weeks.
