

### Guar Daily Fundamental Report

08<sup>th</sup> January, 2018

#### Domestic Fundamentals:

- Cash markets traded firm on Saturday amid lower arrivals.
- Guar prices are likely to remain steady to firm in near future due to good export demand and decrease in arrival pressure. Production of guar is lower in 2017-18 compared to last year due to lower acreage. Carryover stocks have also decreased due to higher exports compared to last year. Traders are holding onto their remaining stocks and are targeting price of Rs 4750-4850 per quintal in upcoming months.
- As per latest update by DGCIS, India has exported around 321570 metric tonnes of guar gum in April-November (2017-18) compared to 226431 metric tonnes in April- November (2016-17). In terms of value, exports have increased by around 60.4 percent. Total crop availability is around 19 lakh tonnes compared to 25.64 lakh tonnes last year. Carryover stocks have also decreased due to higher exports compared to last year.
- All India average monthly prices for guar seed increased by 0.66 percent from Rs 3364.39 in November to Rs 3386.62 per qtl in December-2017. Average price (December) is higher by 16.71 percent compared to price (Rs 2901.90 per qtl.) registered in December -2016. Guar prices are expected to remain steady to firm in coming month.
- As per data released by Baker Hughes the number of oil rigs in USA has decreased to 929 as on 29th December 2017 down by 2 compared to last week and up by 271 compared to 30th December 2016. The total number of oilrigs was recorded at 2057 worldwide in November'17 compared to 1678 in the same month last year. Guar gum is used in hydraulic fracturing for extracting oil and gas; therefore, demand for guar gum is also affected depending on the increase or decrease of the number of oilrigs.
- As per market sources, good demand in churi and korma kept prices of guar seed at higher side. Guar seed future prices closed at Rs 4127.5 per quintal. On the other hand, low demand in guar gum kept prices at lower level. Prices are expected to remain steady to firm in near future.
- As per latest update, option trading in guar will start from 14th January'2018 on the occasion
  of Makar Sakranti. NCDEX has already got approval from SEBI. Guar will be the second
  commodity after gold in which options would be traded.
- The wholesale price index of guar seed has decreased from 85.2 in October 2017 to 84.5 in November 2017. The WPI for November 2017 is up by 10 compared to last year for the same month and by 0.4 compared to November 2015.

Outlook: Prices are likely to move steady to firm in coming days.
