

Domestic Fundamentals:

- *Mixed sentiments reported among major spot market on Tuesday amid lower arrivals.*
- *As per latest update by DGCIS, India has exported around 494126 metric tonnes of guar gum in April-March (2017-18) compared to 419952 metric tonnes in April- March (2016-17). In terms of value, exports have increased by around 34.2 percent. Total crop availability is lower this year compared to last year. Carryover stocks have also decreased due to higher exports compared to last year.*
- *All India weekly average prices increased by 1.03 percent to Rs. 3763.47 per quintal during the week ended 30th April 2018. Guar seed average price were ruling at Rs 3725.16 per quintal during 16-23 April 2018. As compared to prices in the week 24-30 April 2017, the prices are firm by 1.07 percent. Prices are expected to remain steady to weak in coming days.*
- *As per data released by Baker Hughes the number of oil rigs in USA has increased to 1021 as on 27th April 2018 up by 8 compared to last week and by 151 compared to 28th April 2017. The total number of oilrigs was recorded at 2179 worldwide in March'18 compared to 2271 in the same month last year. Guar gum is used in hydraulic fracturing for extracting oil and gas; therefore, demand for guar gum is also affected depending on the increase or decrease of the number of oilrigs.*
- *Guar Seed April contract closed at Rs 3960 per quintal after falling by Rs 165 per quintal. Guar has breached support level of Rs 4000 per quintal and is likely to touch Rs 3800-3850 per quintal in near future. However in long term fundamentals are still in favor of guar with normal export demand and low crop availability. Traders are advised to buy on dip of around Rs 100-150 per quintal.*
- *As per market sources, low demand in churi and korma kept prices of guar seed at lower side. Guar seed future prices closed at Rs 3960.00 per quintal. Prices are expected to remain steady to weak in near future.*
- *As per trade sources, India has exported around 29473 tonnes of guar gum in the month of March at an average FoB of \$1893.32 per tonne. Exports in the month of March are marginally high by around 0.27 percent compared to February. Furthermore, India has exported around 29394 tonnes of guar gum in the month of February at an average FoB of \$1868.71 per tonne.*
- *As per IMD, India will have normal monsoon during June-September'18. Rainfall will be 97% of the long-term average. The next monsoon assessment will be done in June. If monsoon remains normal not much change will be seen in guar acreage compared to last year.*

Outlook: *Prices are likely to move weak in coming days.*
