

Guar Daily Fundamental Report 13th July, 2018

Domestic Fundamentals:

- Mostly firm sentiments reported among major spot market on Thursday amid higher arrivals.
- Guar October contract closed at 4169.00 per quintal after decreasing by 50.00 per quintal.
 Weakness in crude market has lead to drop in prices of guar seed. Guar is likely to touch Rs 3750-3800 per quintal in coming months. Export demand is normal.
- According to latest update, area sown in Gujarat until 09th July 2018 is 2565 hectares compared to 36400 hectares in the previous Kharif season. Area of guar is expected to be lower this season as farmers are shifting to other crops like cotton in irrigated areas and pulses in rain fed areas as these crops are fetching more returns. The last three year average normal area for guar seed in Gujarat is 256167 hectares.
- All India weekly average prices increased by 11.35 percent to Rs. 3684.20 per quintal during the week ended 08th July 2018. Guar seed average price were ruling at Rs 3308.76 per quintal during 24-30 June 2018. As compared to prices in the week 01-08 July 2017, the prices are firm by 11.70 percent. Prices are expected to remain steady to firm in coming days.
- As per data released by Baker Hughes the number of oil rigs in USA has increased to 1052 as on 06th July 2018 up by 5 compared to last week and up by 100 compared to 07th July 2017. The total number of oilrigs was recorded at 2179 worldwide in May'18 compared to 2096 in the same month last year. Although the number of oil rigs is rising but alternatives to guar gum are slightly affecting exports from India.
- Acreage for guar seed is expected to be lower this year due to lower returns in guar compared to other competitive crops. Government has declared higher MSP for Kharif crops.
 Farmers are more likely to sow cotton, Paddy, moong, etc. Fallow land may also increase in Rajasthan during Kharif season as farmers may forego guar to sow chickpea in Rabi season.
- As per trade sources, export of guar gum has increased in the month of May by 18.51 percent compared to previous month. India exported around 32331 tonnes of guar gum in the month of May at an average FoB of \$ 1838.08 per tonne compared to 27282 tonnes in April at an average FoB of \$ 1884.02 per tonne. Export demand is normal as of now.
- As per trade sources, export of guar split has increased in the month of May. Exports in the
 month of May are up by around 86.20% compared to previous month. India exported around
 5480 tonnes of guar split in the month of May at an average FoB of \$ 1460.89 per tonne. Of
 the total quantity around 3060 tonnes and 2000 tonnes has been exported to China and
 Unites States respectively.

Outlook: Prices are likely to move weak in coming days.
