

Domestic Fundamentals:

- *Prices are high in most of the spot markets today amid mixed pace of arrivals. Falling crude oil prices, strong Rupee and increase in Arrivals of guar seed in the spot market will not support prices further to rise in the market.*
- *Guar seed future December contract went up by 52 Rs. to Rs. 4353.00 per quintal against previous day price i.e. Rs. 4301 per quintal. However, sources forecast weak sentiments in weeks ahead and may trade in the range of Rs 4150.00-4250.00 per quintal. Less export demand of guar gum may force guar prices to come down further. It is in talk between traders as exports of Guar-gum may decline by 15% in 2018/19 against last year record.*
- *All India weekly average prices decreased by 0.37 percent to Rs. 3967.79 per quintal during the week ended 30 November 2018. Guar seed average price were ruling at Rs 3982.57 per quintal during 16-23 November 2018. As compared to prices in the week 24-30 November 2017, the prices were higher by 14.44 percent. Prices are expected to remain steady to weak in coming days.*
- *As per data released by Baker Hughes the number of oil rigs in USA has increased to 1079 as on 21st November 2018 down by 3 compared to 16th November 2018 and up by 156 compared to 17th November 2017. The total number of oilrigs was recorded at 2271 worldwide in October'18 compared to 2077 in the same month last year. Slick water is slightly expensive compared to guar gum. However, U.S. is still importing slick water due to fear of unexpected surge in price of guar gum. Therefore, exports are being slightly affected.*
- *As per trade sources, export of guar split has increased in the month of October. Exports in the month of October are up by around 31.19% compared to previous month. India exported around 5640 tonnes of guar split in the month of October at an average FoB of \$ 1375.10 per tonne. Of the total quantity, around 4840 tonnes and 559.79 tonnes have been exported to China and Unites States respectively.*
- *As per trade sources, export of guar gum has decreased in the month of October by 3.00 percent compared to previous month. India exported around 17854 tonnes of guar gum at an average FoB of \$ 1853.62 per tonne in the month of October compared to 18406 tonnes in September at an average FoB of \$ 1765.31 per tonne.*
- *The wholesale price index of guar seed has increased from 97.0 in September 2018 to 100.3 in October 2018. The WPI for October 2018 is up by 17.72 compared to last year for the same month and by 27.45 compared to October 2016. WPI is expected to stay week in coming month.*
- *Guar prices may decline in future after higher arrivals and low exporters demand. Importers prefer slick water over guar gum, although it's little expensive, due to fluctuations in prices of guar gum. Traders are advised to sell December futures for a target of Rs 4300-4350 per quintal.*

Outlook: Prices are likely to move steady to weak in coming days.
