

Domestic Fundamentals:

- Mixed trend are featured in Guarseed market on mixed sentiments while Guar gum prices decreased in physical markets today.
- As per sources, rise in crude oil prices after the killing of Iranian military commander Qassem Soleimani by U.S. may lead to increase guar gum exports in the coming weeks as oil drilling companies in U.S. may increase drilling activities. Sources expect total 330,000 tonnes of guar gum shipments in the current financial year which is lower from 360,000 tonnes in financial year 2019. Total Kharif's output of Guarseed in India stood at 750,000 tonnes in this year.
- All India weekly average prices higher by 12.85 percent to Rs. 3753.59 per quintal during the week ended 8th Jan 2020. Guar seed (Cluster bean seeds) average price were ruling at Rs 3325.94 per quintal during 24 to 31 December 2019. As compared to prices in the week 1-6 January 2018, the prices are higher by 13.04 percent. Prices are expected to move in steady to firm tone in coming days in expectation of improved millers demand.
- Guar seed average weekly prices closed at Rs. 4290 per quintal higher by Rs 70 per quintal against last week. However, prices are likely to be on higher side in hope of improved demand of crushers and millers. NCDEX Prices are likely to stay steady to firm tone in near future with some technical buying interest.
- Steady to weak movement in Churi and Kurma prices affected guar seed prices in Jodhpur market. Guar seed future prices declined while guar gum prices increased on buying interest today. Guar prices in spot markets are likely to trade in steady to firm tone in upcoming days on poor demand of crushers. However, less carryover stock and lower production estimates may support prices to rise in long run.
- As per recent Apeda report, India shipped total 2.40 lakh tonnes of guar gum during April to October 2019-20 with price value Rs. 2066 crore which is lower from 2.98 lakh tonnes in 2018-19 in the corresponding period of time after less exports demand.
- As per data released by Baker Hughes the number of oil rigs in USA has decreased to 817 as on 08th November 2019 down by 5 compared to 01st November 2019 and down by 264 compared to 09th November 2018. The total number of oil rigs was recorded at 2123 worldwide in October'19 compared to 2271 in the same month last year. U.S. is still importing slick water due to fear of unexpected surge in price of guar gum. Therefore, exports are being slightly affected.
- As per trade sources, exports of Guar and Guar gum (Refined Guar Splits, Guar bean splits, DP Guar Gum Refined Splits II grade, Split with pallet, Guar splits 93% Dehusked), Refined Guar gum Grill Guar Refined Splits, Guar 312 GMS*12 & *24(Frozen processed) decreased in November 2019 by 29.95% compared to previous month. India exported around 1543.55 MT at an average FoB of \$ 776.62 per tonne in the month of November-19 compared to 2203.79 MT in October-19 at an average FoB of \$ 1190.44 per tonne. China, Netherlands, UK, Australia, Canada, U.S, Switzerland were the major buyers. Exports are expected to improve slightly in December-19 on good demand.

Outlook: Prices are likely to trade steady to firm tone in coming days.
