

Domestic Fundamentals:

- *Mixed tone are continued in Guarseed and Guargum spot markets today. Arrivals are also reported in mixed tone today.*
- *All India weekly average prices lower by 0.23 percent to Rs. 3523.25 per quintal during the week ended 20th Feb 2020. Guar seed (Cluster bean seeds) average price were ruling at Rs. 3514.87 per quintal during 9th to 15th February 2020. As compared to prices in the week 16-23 February 2019, the prices are lower by 9.06 percent. Prices are expected to move in steady to weak tone in coming days as less demand of millers due to weak demand of gum in the overseas market.*
- *Weak prices of Churi and Korma may also affect guar seed prices in coming day. Guar seed and Guargum future prices of March month contracts declined today on selling activities in the market today. Future prices are volatile and not sustaining at higher price level. Guar prices in spot markets are likely to trade in weak zone in next day amid weak sentiments in the markets.*
- *As per the Agricultural and Processed Food Products Export Development Authority, India shipped 19% lower guar derivatives products to 267823.67 MTs in the first eight month of this financial year against 330974.88 MTs in 2018-19 during the corresponding period of time. India is likely to export 20 % lower guar derivatives in 2019-20 (Apr-Mar) on account of poor demand for guar gum from the U.S. as it has started to use other alternatives of gum. Weak crude oil prices and declining numbers of oil rigs have also weakened U.S. demand for gum. Polyacrylamide, carboxymethyl cellulose, xanthan gum, and partially hydrolyzed polyacrylamide are the major alternatives products of guar gum and likely to replace and affect demand of gum in this year. Exporters expect 20% lower shipment in the range of 280,000-300,000 tonnes in this fiscal year. However, guar meal exports are likely to increase by 17% to 175,000 tonnes in this year as demand is rising due to its higher amino acid profile and overseas buyers are switching from soymeal to guar meal. Good exports demand of guar meal is supporting guar meal prices to rise.*
- *As per data released by Baker Hughes, the number of oil rigs in USA has unchanged to 790 as on 14th February 2020 compared to last week and down by 261 compared to 15th Feb 2019. Total number of oilrigs was recorded at 3957 in Janaury'20 compared to 4259 in the corresponding period in last year. Therefore, exports are being slightly affected.*
- *As per trade sources, export of guar split has increased in the month of January-20. Exports in the month of Janaury-20 are higher by around 60.38% compared to previous month. India exported around 3400 tonnes of guar split in the month of January-20 at an average FoB of \$ 1241 per tonne. Of the total quantity, around 2180 tonnes have been exported to China.*
- *As per trade sources, export of guar gum has increased in the month of Janaury-20 by 30.37 percent compared to previous month. India exported around 23178.89 tonnes of guar gum at an average FoB of \$ 1710.37 per tonne in the month of January-20 compared to 17779.68 tonnes in December-19 at an average FoB of \$ 1830.69 per tonne. Exports are expected to increase in February-20 on firm demand.*

Outlook: *Guarseed and Guargum prices are likely to trade in steady to weak zone in next day.*
