
Domestic Fundamentals:

- Trading centers are closed due to lock down announcement in India until 14th April 2020 to prevent the spread of COVID-19.
- All India weekly average prices declined by 4.23 percent to Rs. 3134.60 per quintal during the week ended 23rd Mar 2020. Guar seed (Cluster bean seeds) average price were ruling at Rs. 3273.37 per quintal during 9th March to 15th March 2020. As compared to prices in the week 9-15 March 2019, the prices are lower by 20.18%. Prices are expected to move in steady to weak tone in coming days on less demand of crushers after weak demand of gum in the overseas markets. Major buyers like U.S and Russia are very slow due to major fall in oil industry. There is no shipment in China and likely to take another two months once the conditions from coronavirus will improve. Churi prices may also decline due to weak demand in poultry firms on impact of Covid-19.
- There is dull trading activity in guarseed and guar gum markets because of two factors- guar gum consumption in fracking has been affected as crude oil has witnessed a sharp fall, and the consumption in food industry is likely to be affected as consumption of processed foods declines in light of the coronavirus epidemic. As a result, the price of guar gum has declined, but that of guarseed is largely stable as less stock availability has limited the fall in prices and stockiest are buying for the investment purpose. Lock down announcement at various states may slow down trading activities in next week.
- Guar seed & Guar gum future prices future prices rose on buyer's interests today.
- As per data released by Baker Hughes, the number of oilrigs in USA has lowered by 20 to 772 as on 20th March 2020 compared to 792 in last week and down by 244 compared to 22nd March 2019. Total number of oilrigs was recorded at 3161 in February'20 compared to 4192 in the corresponding period in last year. Therefore, exports are being slightly affected.
- As per trade sources, export of guar split has declined in the month of February-20. Exports in the month of February-20 are lower by around 40% compared to previous month. India exported around 2020 tonnes of guar split in the month of February-20 at an average FoB of \$ 1119 per tonne. Of the total quantity, around 1700 tonnes have been exported to China.
- As per trade sources, export of guar gum has declined in the month of February-20 by 38.27 percent compared to previous month. India exported around 14596.11 tonnes of guar gum at an average FoB of \$ 1685.40 per tonne in the month of February-20 compared to 23178.89 tonnes in January-20 at an average FoB of \$ 1710.37 per tonne. Exports are expected to decline in March-20 on weak demand in overseas markets.

Outlook: No major trading activities due to lock down condition in India.
