
Domestic Fundamentals:

- Mixed trend witnessed in various guar seed market yards on demand and supply dynamics Wednesday. However, thin trade activity witnessed in these markets. Several guar market yards are still closed due to ongoing nationwide lockdown amidst COVID-19, which have been extended in India till 31st May 2020.
- We expect further increase in trade activities in guar seed and guar gum markets in coming days. However, persistent dull demand in guar gum in fracking as crude oil witnessed a sharp fall and decline in the consumption in processed food industry in light of the coronavirus epidemic will continue to weigh on the trade on guar.
- At NCDEX, Guar seed and Guar gum futures posted gains on buying support in the market, Tuesday.
- As per data released by Baker Hughes, the number of oilrigs in USA has lowered by 21 to 318 as on 22nd May 2020 compared to 339 in last week and down by 665 compared to 24th May 2019. Total number of oilrigs was recorded at 2260 in April'20 compared to 4050 in the corresponding period in last year. Hence, fall in India's guar gum exports.
- Export of guar split have improve in the month of March-20. Exports in the month of March-20 are lower by around 54% compared to previous month. India exported around 3120 tonnes of guar split in the month of March-20 at an average FoB of \$ 1194 per tonne. Of the total quantity, around 2500 tonnes have been exported to China.
- Export of guar gum have declined in the month of March-20 by 5 percent compared to previous month. India exported around 13820 tonnes of guar gum at an average FoB of \$ 1815 per tonne in the month of Marxh-20 compared to 14596 tonnes in February-20 at an average FoB of \$ 1685.4 per tonne. Of the total 4043 tonnes have been exported to USA. Exports are expected to decline in April-20 on weak demand in overseas markets.

Outlook: The guar seed and guar gum trade is likely to feature range-bound movement with weak bias on slack in global and domestic demand due to coronavirus pandemic, near-term.
