
Domestic Fundamentals:

- Mostly weak sentiments witnessed in the guar seed and guar gum market on need-based demand. Overall, the overseas guar gum demand is weak mainly on fall in the number of oil rigs counts this year. The local demand in guar gum have slightly improved but overseas demand for the same is badly hit due to fall in the oil rigs counts.
- Surge in global crude oil demand could prove to be positive for the guar market. However, need based buying continued in the market. Besides, commitment of reduction of crude oil production by 1 Mn barrel by Saudi Arabia in February and March may benefit the oil exploration companies of countries where guar gum is imported from India.
- At NCDEX, February contract, guar seed witnessed losses while guar gum futures posted gains buying support in the market, Friday.
- As per data released by Baker Hughes, the number of oilrigs in USA increased by 9 to 360 as on 08th January 2021 compared to 351 previous week and 781 on 10th January 2021. Total number of oilrigs were recorded at 1,706 in December'20 compared to 3,216 in the corresponding period in last year.
- India's guar gum exports improved in the month of December 2020 by +32% to 17,644 tonnes compared to 13,414 tonnes during November 2020 at an average FoB of US \$ 1849 per tonne in the month of December compared to US \$ 1611 per tonne in the month of November 2020. **However, the gum shipments were down -1% in December 2020 compared to the same period last year.** Of the total exported quantity, around 4,914 tonnes is bought US, Russia (3,290 tonnes) and Germany (2,432 tonnes).
- India's guar split exports fell in the month of December 2020 by -39% to 2,800 tonnes compared to 4,557 tonnes during November 2020 at an average FoB of US \$ 955 per tonne in the month of December compared to US \$ 1,390 per tonne in the month of November 2020. **Further, the guar split shipments were up +32% in December 2020 compared to the same period last year.** Of the total exported quantity, around 1,880 tonnes is bought China, US (800 tonnes) and Switzerland (120 tonnes).

Outlook: The guar seed and guar gum trade is likely to feature range-bound movement with weak-bias on weak overseas guar gum demand, in near to medium-term.
