

**Domestic Fundamentals:**

- Most of the cash market yards remained closed for COVID lockdown restrictions, Saturday. India's March guar gum export figure once again remained positive as we witnessed in February. Overall, the overseas guar gum demand is weak mainly on fall in the number of oil rigs counts during last one year. The local demand in guar gum is steady but overseas demand is hit due to fall in the oil rigs counts.
- However, there is considerably a good sign of gradual increase in oil rigs with surge in crude oil demand in recent months, this could increase in the overseas guar gum demand.
- Need based buying in guar is featured in the market.
- At NCDEX, in the most active May contract, guar seed and guar gum witnessed losses on selling pressures, Friday.
- As per data released by Baker Hughes, the number of oilrigs in USA increased by 2 to 440 as on 30th April 2021 compared to 438 previous week, 23rd April 2021. Further, they are up by 8% from 408 oilrigs in the corresponding period in last year.
- India's guar gum exports improved in the month of March 2021 by over +12% to 20,127 tonnes compared to 17,915 tonnes during February 2021 at an average FoB of US \$ 1659 per tonne in the month of March compared to US \$ 1993 per tonne in the month of February 2021. **Further, the gum shipments were up +46% in March 2021 compared to the same period last year.** Of the total exported quantity, around 6,235 tonnes is bought US, Germany (3,075 tonnes) and China (2,688 tonnes).
- India's guar split exports rose in the month of March 2021 by +12.5% to 3,334 tonnes compared to 2,964 tonnes during February 2021 at an average FoB of US \$ 1,025 per tonne in the month of February compared to US \$ 1,013 per tonne in the month of February 2021. **However, the guar split shipments were up +8% in March 2021 compared to the same period last year.** Of the total exported quantity, around 2,521 tonnes is bought China, US (680 tonnes) and Netherlands and Switzerland (60 tonnes each).

**Outlook:** The guar seed and guar gum prices are likely to feature range-bound movement on weak guar gum demand, in near to medium-term. Some signs of recovery in the exports in the guar products may push up the prices to some extent on long run.
