

Executive Summary:

- In Ahmadabad region of Gujarat, poultry and starch feed makers quoted maize at Rs. 1500 per quintal.
- As per Government data, maize have been sown in 3.43 lakh hectares as on 13th November, 2015, higher by 0.11 lakh hectares than the corresponding period of last year. Major growing states like A.P., Telengana, Gujarat, Karnataka, Maharashtra and Tamil Nadu have covered 0.14, 0.21, 0.22, 0.57, 1.3 and 0.83 lakh hectares so far respectively.
- As per IBIS data, around 1928 MT was exported mainly to Qatar followed by Norway during the period 2nd November'15 to 8th November'15, higher by ~12% as compared to last week. Agriwatch expects total export demand to remain lower during 2015/16 due to export disparity.
- In Bihar, maize area is expected to increase around 8-10% due to shift from wheat to maize. Recent showers of rains are considered beneficial for sowing. Appropriate Moisture level in the field has encouraged sowing activities. As maize prices are ruling at its high level; it is likely to trade steady ahead.
- In Delhi, maize is likely to trade firm in near term due to feed makers and stockiest' demand.
- In A.P, new crop contains 14% moisture level. Maize is likely to trade firm amid poultry feed makers and stockist demand.

International Market Commentary:

- Corn prices on CBOT rose yesterday by 0.69 USD/MT to 141.70 USD/MT for December contract due to short covering. However, it is expected to trade down in the near amid ample supply and limited export demand for U.S corn.
- As per the latest crop progress report released by USDA, 96% crop of Corn has been harvested as on 15th November, 2015; higher by 8% from the previous year and 2% from the last 5 year average period.

Outlook and Recommendation: Despite continuous arrivals from newly harvested crop maize cash market is likely to trade steady to slightly firm in the week ahead backed up by feed makers and stockist demand.
