

Executive Summary:

- In Ahmadabad region of Gujarat, poultry feed makers quoted maize steady at Rs.1325 per quintal while starch feed makers quoted it firm by Rs. 5 per quintal to Rs.1380 per quintal.
- In Gulababagh region of Bihar, maize (Bilty) quoted steady at Rs. 1350 per quintal compared to previous day. Maize prices have recovered from the bottom level due to delay in new crop arrivals which are expected to hit the market from the mid April. Besides, yield loss is another factor to support the market gain. That recovery could also limit the bottom level of South Indian markets during harvesting season.
- In Nizamabad, maize (Bilty) quoted steady at Rs. 1340 per quintal compared to previous day and is likely to trade steady to range bound in near term amid local feed makers demand.
- In Davangere, maize is likely to trade steady to slightly firm in near term by taking cues of yield loss in Bihar. However, new crop arrival pressure in nearby districts could limit the gain.
- There are media reports quoting Ministry of Agriculture, Government of A.P that the state govt. would pay Rs. 200 per quintal as bonus for maize farmers this year. However, there is no official notification for this yet and Agriwatch could not independently confirm this from official sources. If true, this would support market price to a certain extent.

International Market Commentary:

- USDA projected a larger than expected decline in U.S corn plantings for 2018. U.S. corn planted area projected lower by 2.141 million acres to 88.026 million acres for 2018 compared to last year and below an average of analyst expectations for 89.420 million acres.
- As per USDA, U.S corn exports reached 22.96 MMT in the 2017-18 marketing year. At 1.38 MMT (for the period 9th March -15th March, 2018) US corn exports were unchanged from the previous week, but up 8 percent from the previous 4-week average. The destinations were primarily to Mexico (294,500 MT), South Korea (255,300 MT), Japan (195,400 MT), Colombia (154,500 MT), and Vietnam (136,500 MT).

Outlook and Recommendation: Maize cash market is likely to trade steady to range bound in the near term.
