

10th July, 2020

Executive Summary:

- In Telangana, maize has been sown in 68,297 acres as of 08th July'20; lower than 3,69,050 acres compared to corresponding period last year. Maize sown area is 6% to season normal and at early vegetative stage. In Nagarkurnool district, maize crop has stem borer pest.
- In U.P, starch feed makers are buying maize at Rs.1300 per quintal; sourced from Naugachia region of Bihar while in Telangana, local starch feed makers are buying maize at Rs. 1310 per quintal while it is being delivered to Hyderabad at Rs.1400 per quintal. Maize is moving towards Bangalore at Rs. 1500 per quintal and Namakkal at Rs.1550 per quintal ; sourced from Davangere region of Karnataka.
- In Bihar, despite the local stockists' demand and export demand from Bangladeshi and Nepalese feed makers, maize is being traded at Rs. 1225 per quintal (Bilty Price). Recent rains in Bihar has affected the arrival quality. It is expected that maize would trade steady to range bound amid limited demand.

Previous Updates:

- In India, maize has been sown in 45.59 lakh hectares as of 3rd July'20 which is higher than 23.38 lakh hectares of the corresponding period last year. In M.P, maize has been sown in 10.84 lakh hectares as of 3rd July'20; higher than 1.54 lakh hectares compared to corresponding period last year. In Maharashtra, it has been sown in 6.23 lakh hectares; higher than 0.48 lakh hectares compared to corresponding period last year.
- As per media sources, Maharashtra government has procurement target of 9 lakh quintals of maize till 15th July.
- India has authorized imports of 5 lakh ton Non- GM Maize (other than seed quality) at a concessional custom duty of 15 % under TRQ Scheme for end users for the current financial year. At present, there is no import parity as maize is trading lower in the domestic markets due to demand destruction from poultry feed industry on the fear of corona virus.
- Maize acreage in Kharif 2020-21 may turn out more or less the same as that in Kharif 2019-20 even as farmers could prefer less labour intensive crops. Expectation of a good monsoon, the increase in MSP by Rs. 90 per quintal at Rs. 1850 per quintal for the Kharif season 2020-21 and the bonus offered by the Haryana government to switch from water guzzling paddy to maize are all good motivating factors for farmers to grow more maize this Kharif season. On the other hand, low prevailing market prices could be a major factor to shift towards more remunerative and high yield crops like pulses.
- As per trade sources, in Telangana, harvesting of rabi crop of maize has been completed while in Bihar and Karnataka regions, 90% of the maize crop has been harvested till date.
- In Nizamabad, maize is likely to trade steady amid limited demand and arrival.
- As per trade sources, India exported around 19,934 MT of maize for the month of May'20 at an average FoB of \$205.76/ MT. Out of which, around 15,364 MT Indian maize was exported mainly to Nepal at an average FoB of \$193.74/MT; mainly through Raxaul followed by Sonauli ICD, Jogbani ICD and Nepalgunj Road port.
- As per AP markfed, from the current rabi crop, 3,80,933 MT of maize has been procured by A.P government as of 17th June,2020.
- The Cabinet Committee on Economic Affairs (CCEA) has approved the increase in MSP of maize by Rs. 90 per quintal to Rs. 1850 per quintal for Kharif crop for marketing season 2020-21.
- As per trade sources, India imported around 268.5 MT of maize for the month of April'20. Out of this, around 193.5 MT was imported from Myanmar at Kolkata port (145.5 MT @ \$261.04 USD/MT) and Chennai port (48 MT @ \$249.98 USD/MT).

International Market Commentary:

- Corn on CBOT rose by 1.28 USD/MT to 137.10 USD/MT for July'20 contract compared to previous day. Further, price direction depend on the demand for U.S corn.
- In U.S, 71% crop of corn is in good to excellent condition, down 2 percentage points from last week due to hot and dry weather in U.S Midwest.

Outlook and Recommendation: Maize cash market is likely to trade steady to range bound in the near term.
