

**Executive Summary:**

- As per trade sources, in M.P region, there could be 4-5% crop loss due to heavy rains; occurred 2 weeks before. However, in Gujarat, crop loss assessment would be possible in next 10-15 days when conditions become favorable.
- In Bihar, maize is being traded at Rs. 1250 per quintal (Bilty Price). It is being delivered to Kolkata at Rs.1400-1450 per quintal; sourced from Bihar. Hyderabad poultry feed makers are buying maize at Rs. 1525 per quintal; sourced from Nizamabad region. It is also moving towards Tamil Nadu and Bengaluru at Rs. 1620 and Rs. 1550 per quintal, sourced from Davangere region of Karnataka.

Previous Updates:

- In A.P, maize has been sown in 0.93 lakh hectares as of 16th Sep'20 which is higher than 0.89 lakh hectares of the corresponding period last year. Maize sown area is 100% to season normal and at Knee high to tasselling and cob formation stage. In Visakhapatnam, Vizianagaram, Guntur, Anantapuram, Kurnool, Chittoor, Krishna and YSR Kadapa districts of Andhra Pradesh, around 5673 hectares area of maize has been affected by fall-armyworm; out of which 4871 hectares has been treated.
- In Telangana, maize crop is at cob formation to seed hardening stage. Agriwatch trade sources revealed that decrease in acreage is mainly due to encouragement by Telangana Government, to shift towards other remunerative crops like Tur, Cotton and Soybean. Also, fall-armyworm and stem- borer in Nizamabad and Jagtial districts is below ETL. Agriwatch expects that decrease in acreage would support to maize prices in the state.
- In India, maize has been sown in 80.71 lakh hectares as of 11th Sep'20, 108% of normal area. Agriwatch expects maize sown area at 82.17 lakh hectares for the Kharif season 2020-21 which is above than normal area of 74.73 lakh hectares but below than last year area of 82.44 lakh hectares. In Maharashtra, it has been sown in 8.81 lakh hectares; higher than 8.61 lakh hectares compared to corresponding period last year. In Rajasthan, it has been sown in 9.34 lakh hectares; higher than 8.82 lakh hectares compared to corresponding period last year. In M.P, maize has been sown in 15.38 lakh hectares; higher than 15.36 lakh hectares compared to corresponding period last year.
- As per trade sources, India exported around 2,00,296 MT of maize in the month of July'20 at an average FoB of \$184/ MT, out of which, 1,36,179 MT Indian maize was exported to Bangladesh at an average FoB of \$188.58/MT and around 59,037 MT was exported to Nepal at an average FoB of \$177.58/MT.
- India has authorized imports of upto 5 lakh ton of Non- GM Maize (other than seed quality) at a concessional custom duty of 15 % under TRQ Scheme for end users, in the current financial year 2020-21. At present, there is no import parity as maize is trading lower in the domestic markets due to demand destruction from poultry feed industry on the fear of corona virus, hence there has been no imports. But it could limit the upside in the long run.
- The Cabinet Committee on Economic Affairs (CCEA) has approved the increase in MSP of maize by Rs. 90 per quintal to Rs. 1850 per quintal for Kharif crop for marketing season 2020-21.

International Market Commentary:

- Corn on CBOT rose by 1.28 USD/MT to 149.01 USD/MT for December'20 contract compared to previous day.
- As per USDA, U.S corn exports have reached 1.15 MMT in the 2020-21 marketing year. At 0.90 MMT (for the period 4th Sep - 10th Sep, 2020) US corn exports were up 0.52 percent from the previous week; mainly for the destinations like Mexico (213,000 MT), China (209,700 MT), South Korea (138,800 MT), Colombia (118,700 MT), and Japan (114,400 MT). Agriwatch expects that increase in export demand for U.S corn would support to CBOT corn.
- In U.S, 60% crop of corn is in good to excellent condition as of 13th September'20, down 1 percentage points from last week. 41% of crop has matured as of 13th September'20, up 25 percentage points from corresponding period last year.
- USDA decreased its world corn ending stock estimates by 10.67 MMT to 306.79 MMT for 2020/21 compared to last month due to decrease in production estimates which would support to global corn market.

Outlook and Recommendation: Maize cash market is likely to trade steady to slightly firm in the near term.
