

24th September, 2020**Executive Summary:**

- In Bihar, maize is being traded at Rs. 1300-1325 per quintal (Bilty Price). It is being delivered to Kolkata at Rs.1400-1450 per quintal; sourced from Bihar. Hyderabad poultry feed makers are buying maize at Rs. 1500-1550 per quintal; sourced from Nizamabad region. It is also moving towards Tamil Nadu and Bengaluru at Rs. 1550 and Rs. 1500 per quintal, sourced from Davangere region of Karnataka.

Previous Updates:

- In India, maize has been sown in 82.71 lakh hectares as of 18th Sep'20, 110.68% of normal area and above than last year area of 82.44 lakh hectares. In Maharashtra, it has been sown in 8.81 lakh hectares; higher than 8.66 lakh hectares compared to corresponding period last year. In Rajasthan, it has been sown in 9.34 lakh hectares; higher than 8.82 lakh hectares compared to corresponding period last year. However, in M.P, maize has been sown in 15.38 lakh hectares; lower than 15.42 lakh hectares compared to corresponding period last year.
- As per trade sources, India exported around 2,35,436 MT of maize in the month of Aug'20 at an average FoB of \$182.24/ MT, out of which, 1,65,704 MT was exported to Bangladesh at an average FoB of \$190.18/MT and around 65,160 MT was exported to Nepal at an average FoB of \$177.46/MT.
- In Telangana, maize has been sown in 0.89 lakh hectares as of 18th Sep'20 which is lower than 3.90 lakh hectares of the corresponding period last year. Maize crop is at cob formation to seed hardening stage. Agriwatch trade sources revealed that decrease in acreage is mainly due to encouragement by Telangana Government, to shift towards other remunerative crops like Tur, Cotton and Soybean. Also, fall-armyworm and stem- borer in Nizamabad and Jagtial districts is below ETL. Agriwatch expects that decrease in acreage would support to maize prices in the state.
- As per trade sources, in M.P region, there could be 4-5% crop loss due to heavy rains; occurred 2 weeks before. However, in Gujarat, crop loss assessment would only be possible in next 10-15 days when conditions become favorable.
- In A.P, maize has been sown in 0.93 lakh hectares as of 16th Sep'20 which is higher than 0.89 lakh hectares of the corresponding period last year. Maize sown area is 100% to season normal and at Knee high to tasselling and cob formation stage. In Visakhapatnam, Vizianagaram, Guntur, Anantapuram, Kurnool, Chittoor, Krishna and YSR Kadapa districts of Andhra Pradesh, around 5673 hectares area of maize has been affected by fall-armyworm; out of which 4871 hectares has been treated.
- India has authorized imports of upto 5 lakh ton of Non- GM Maize (other than seed quality) at a concessional custom duty of 15 % under TRQ Scheme for end users, in the current financial year 2020-21. At present, there is no import parity as maize is trading lower in the domestic markets due to demand destruction from poultry feed industry on the fear of corona virus, hence there has been negligible imports. But it could limit the upside in the long run.
- The Cabinet Committee on Economic Affairs (CCEA) has approved the increase in MSP of maize by Rs. 90 per quintal to Rs. 1850 per quintal for Kharif crop for marketing season 2020-21.

International Market Commentary:

- Corn on CBOT fell by 0.20 USD/MT to 145.37 USD/MT for December'20 contract compared to previous day.
- In U.S, 61% crop of corn is in good to excellent condition as of 20th September'20, up 1 percentage points from last week. 8% of crop has been harvested as of 20th September'20, up 2 percentage points from corresponding period last year.
- As per USDA, U.S corn exports have reached 1.15 MMT in the 2020-21 marketing year. At 0.90 MMT (for the period 4th Sep - 10th Sep, 2020) US corn exports were up 0.52 percent from the previous week; mainly for the destinations like Mexico (213,000 MT), China (209,700 MT), South Korea (138,800 MT), Colombia (118,700 MT), and Japan (114,400 MT).

Outlook and Recommendation: Maize cash market is likely to trade steady to range bound in the near term.
