- As per USDA, U.S. Maize exports have reached 10.37 MMT in the 2020-21 marketing year. At 1.07 MMT (for the period November 20 -November 26, 2020) U.S. Maize exports were up 23 percent from the previous week and 35 percent from the prior 4-week average; mainly for the destinations like China (475,800 MT), Mexico (312,300 MT), Japan (82,300 MT), Guatemala (59,500 MT), and Honduras (49,700 MT). Agriwatch expects that increase in export demand for U.S corn would support to CBOT Corn. However, new crop arrivals in U.S and recent rainfall in South America could limit the gain.

**Outlook and Recommendation:** Maize cash market is likely to trade steady to slightly firm in the near term.
