International Market Commentary:

- Corn on CBOT fell by 1.97 to 252.65 USD/MT for March'22 contract, as compared to previous day due to weather and crop related concerns in Brazil and Argentina. AgriWatch expects that dry weather-related conditions in Brazil and Argentina may provide support to U.S corn exports.
- U.S. Maize exports have reached to 20.71 million metric tonne (MMT) for the 2021-22 Marketing Year, with the exports of 1.14 MMT for the period of 27th Jan 2022– 3rd Feb 2022, these exports were down by 2 percent from the previous week and down by 6 percentage from the prior 4-week average, to the destinations like Japan (331,100 MT), China (208,800 MT), Canada (168,100 MT), Mexico (165,100 MT), and Colombia (149,700 MT). AgriWatch expects that due to pressure on freight prices in U.S due to cool weather, U.S corn exports should remain stable.

Outlook and Recommendation: Maize cash market is likely to trade with steady to mixed sentiment in the coming near term.
