May-23	233.75	234.83	227.55	234.24	2.26

Outlook and Recommendation:

- AgriWatch expects, range bound price movement of Maize during the coming near term, since domestic as well as export demand continues to remains normal and also there has been decline in the arrivals reaching markets on the account of decreasing Rabi Maize in the market.
- Buying excess quantity of Maize under current prices would not be a wise discussion with respect to the expectation of a good return in medium to long term.
