Outlook and Recommendation:

- AgriWatch expects, steady to slightly weak price movement of Maize during the coming near term. The domestic arrivals will begin shortly while the export demand will start to increase soon.
- At present, considering the overall scenario, and prevailing post Monsoon conditions, bulk buyers must wait for dry maize for at least a month. AgriWatch expects the prices to stabilise and then buying will start for stock purposes. For old stock holders, it is right time to release stocks at current price or could for hold it for at least three to four months at get better prices.
