

Pulses Domestic Fundamentals:
Today's Update:

- Imported Lentil in Kolkata traded at INR 6000 per quintal, up by INR 25 due to increase in demand while Desi origin traded at INR 6200 per quintal, down by INR 50 in Kanpur. Despite the easy availability, increased import cost from importing countries mainly from Canada may keep supportive for prices. Masur prices are likely to increase by INR 100-200 per quintal in coming days.

Previous Update:

- Lentil too traded up by almost 1% during the week under review due to increased import parity mainly from Canada as demand for Canadian origin is being noticed from Pakistan and Bangladesh amidst lower intention for next crop coverage. Moreover, major part of new domestic crop in India has already been harvested and only 30-40% crop is lying in the fields. So, crop damage due to recent rains and hailstorm is expected to be near around 2-5% as crop is hardy in nature. Masur production is expected to remain good this year due to conducive weather and increased acreage which was up by 5% to 18.52 lakh ha. However, increased import cost from importing countries will support the prices. Masur prices are likely to increase by INR 100-200 per quintal more from current level in coming days.

International Market Update:

- As per the Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) forecast, Lentil production in Australia in 2022-23 may increase by 41% to 14.12 LT from 9.99 LT in 2021-22 due to expected increase in sowing area which estimated to increase to 6,46,000 ha. from 5,75,000 ha in 2021-22 season.
