

### Pulses Domestic Fundamentals:

#### Today's Update:

- As per sources, Lentil sowing is likely to start soon in Canada. Farmers have expressed their intention for reducing Red Lentil area this season while bring more land under Green Lentil at the same time. Given the back ground of good domestic crop, India is believed to import less quantity this season which may keep the prices in a range.

#### Previous Update:

- Lentil traded down by 3% in major markets including Kanpur and Ashok Nagar due to new crop arrivals during the week under review. As per AgriWatch, Lentil production is expected to remain good at 13.89 lakh tonnes this year due to increase in sowing area and higher yields amidst conducive weather throughout the season. Lentil expected to trade in a range of INR 100-200 per quintal with slightly weak bias in coming days

### International Market Update:

- According to Statistics Canada, Red Lentil exports from the country increased by 3% to 1,16,479 MT in February from 1,13,473 MT in January. Turkey emerged the biggest buyer with buying 1,09,862 MT Red Lentil followed by USA and Belgium those purchased 1662 MT and 837 MT respectively.
