

Masur Domestic Fundamentals:

Today's Update:

- As per IMD, conditions are becoming favourable for further advancement of SW-monsoon over some more parts of south Peninsular and East India and adjoining areas during 18-21st June, 2023. Weather is likely to remain dry over rest parts of the country. The progress of SW-monsoon has remained slow so far which has halted the sowing intention by growers due to reduction in residual of moisture. However, major Kharif Pulses including Tur, Moong and urad is likely to increase this year given the back ground of significantly hike in MSP couple with higher remunerative prices throughout the year.

Previous Update:

- NAFED has procured a total 74,404 MT Rabi Lentil as on 16th June 2023. Out of total, it has procured 64,501 MT in Madhya Pradesh and 9,902 MT in Uttar Pradesh.
- Given the latest release by MOA regarding the sowing, sowing area is lagging this year as SW Monsoon is still weaken so far due to El-Nino effect couple with current Cyclonic condition in Arabian sea which has negatively affected the monsoon progress. If condition remains same in coming days too, sowing area may also be affected accordingly. Besides, the temperature over the key growing states is increasing due to which the soil moisture condition is depleting fast. Thus, it is likely to affect / delay the progress of sowing.

International Market Update:

- According to Statistics Canada, Green Lentil exports from the country increased by 4% to 30,640 MT in March from 29,466 MT in February. Thus, total green Lentil export during the Marketing Year up to March increased by 21% to 2, 45,796 MT. Morocco emerged the biggest buyer with buying 4,288 MT followed by Colombia and United Arab Emirates those purchased 3788 MT and 2547 MT respectively.
