

**Masur Domestic Fundamentals:**
**Today's Update:**

- During the week under review, Lentil experienced mixed trading due to lower levels of trading activity. This can be attributed to a surplus in supply caused by regular local arrivals and ongoing imports from Canada and Australia at more affordable prices. Lentil prices are expected to remain within a certain range until the demand for the festive season emerges. It is anticipated that demand will improve by the end of July, but there is no expectation of a sudden increase in prices in the coming days, considering the balance between supply and demand. According to official reports, India has already imported approximately 4 lakh tonnes of lentils in the first four months of the current calendar year (January to April). The price of Lentil is projected to fluctuate within a range of INR 100-200 per quintal.
- Lentil traded at INR 5950 per quintal in Kanpur and while it remained stagnant at INR 5975 per quintal in Indore.
