

Masur Domestic Fundamentals:

Today's Update:

- With the exception of imported Canadian origin Lentils in Mumbai, other major benchmark markets experienced a firm trading trend, rising by an average of 1-2%. This increase can be attributed to improved demand and the anticipation that the ongoing workers' strike at the West Coast of Canada may hinder the export of Pulses, particularly Lentils, from the country. However, it is unlikely that there will be a sudden and significant spike in prices due to the current supply glut caused by higher imports. Nonetheless, trade sentiments are expected to remain strong in the coming days, and prices may fluctuate within a range of +/- INR 100 per quintal. According to official records, India has already imported 461,000 metric tons of Lentils during the first five months of the current calendar year (January to May). Lentil traded at INR 6025 per quintal, up by 1.26% in Kanpur and at INR 6075 per quintal in Indore while it traded down by 0.43% at INR 5825 per quintal in Mumbai.

International Market Update:

- Pulses export specially Lentil and Peas are expected to be hampered from Canada due to closure of its West Coast port owing to workers' strike. However, much impact is not likely at present as export pace during the month of July and August remains slow which normally surges in September. At that time, bulk export figure jumps up to 20-23% in case of all peas while it increases up to 15-17% in case of Lentil.
