Commodity-wise Domestic, International Prices and Arrivals at Different Centres

Market Update / Highlights:

According to the IMD, a cyclonic circulation is anticipated to develop over the northwest Bay of Bengal by around July 16th, 2023. As a result of this system, a low-pressure area is likely to form in the same region within the following 2-3 days. The IMD also predicts that there will be widespread to moderate rainfall in most parts of the country, except in West Rajasthan, Andhra Pradesh, South Interior Karnataka, and Tamil Nadu, where isolated to scattered rainfall is expected.

The inadequate and uneven rainfall experienced thus far has caused concern among market participants regarding the coverage of sowing. The sowing coverage for Tur and Urad has reduced, while it remains consistent for Moong. Slow and unsatisfactory showers have caused Tur coverage to lag behind in Karnataka, while uneven rainfall distribution has resulted in lower coverage in Maharashtra. In the meantime, it is reported that the sowing window for Urad and Moong is almost closed in Karnataka due to insufficient rains with lower acreage, while Urad coverage in the major producing state of Madhya Pradesh is expected to decrease. Growers in MP have reportedly shifted their focus to more profitable crops like Groundnut, Soybean, and Maize due to significant losses incurred from Urad cultivation in the previous season, which was plagued by continuous rain and quality issues. Maharashtra is also witnessing lower coverage for major Kharif crops, including Tur, Moong, and Urad, due to insufficient rainfall. If the sowing area fails to recover in the upcoming days, it will continue to impact market sentiments. Therefore, the monsoon will play a crucial role in determining trade sentiments in the coming days.

As per official release, India has imported a total 1,38,272 MT of pulses including 38,288 MT Tur, 31,625 MT Urad, 61,999 MT Masur, 510 MT Moong, 240 MT Bengal Gram and 5,611 MT Kabuli in May 2023.

As per official release, India has imported 61,999 MT of Lentils' during the month of May 2023 as compared to 16,113 MT in May 2022. Amongst which 53,460 MT has been imported from Australia and 7,721 MT from Canada, 500 MT from US and 319 MT from UAE.

As per official release, India has exported a total 41,231 MT of pulses including 1,777 MT Tur, 3,608 MT Urad, 16,220 MT Masur, 2,879 MT Bengal Gram and 16,113 Kabuli in May 2023.

As per trade sources, total 10,100 MT Pulses imported at Chennai port during 1st to 7th July including 1,750 MT Tur, 2,625 MT Urad, 5,100 MT Lentil.

Vessel MV Golden, loading with 38,020 MT Crimson Lentil has arrived at Mundra port.

International News

Pulses export specially Lentil and Peas are expected to be hampered from Canada due to closure of its West Coast port owing to workers' strike. However, much impact is not likely at present as export pace during the month of July and August remains slow and normally surges in September. At that time, bulk export figure jumps up to 20-23% in case of all peas while it increases up to 15-17% in case of Lentil.

As per the Australia Bureau of Statistics, Lentil export from Australia remained better at 2,64,762 MT in June 2023, significant up by 74% from 152201 MT in May 2023. Thus, total export surged by approx. 84% to 1086370 MT during the Marketing Year from 587227 MT. India emerged the largest importer who purchased 1,09,971 MT.

According to the recent report by The Canadian Grain Commission (CGC), Lentil export from Canada increased to 159600 MT in May from 41000 MT in April. However, Lentil export from the country was 134000 MT in same period last year. Total export quantity reached up to 1087700 MT during the current Marketing Year well up from 505500 MT seen during the last MT.

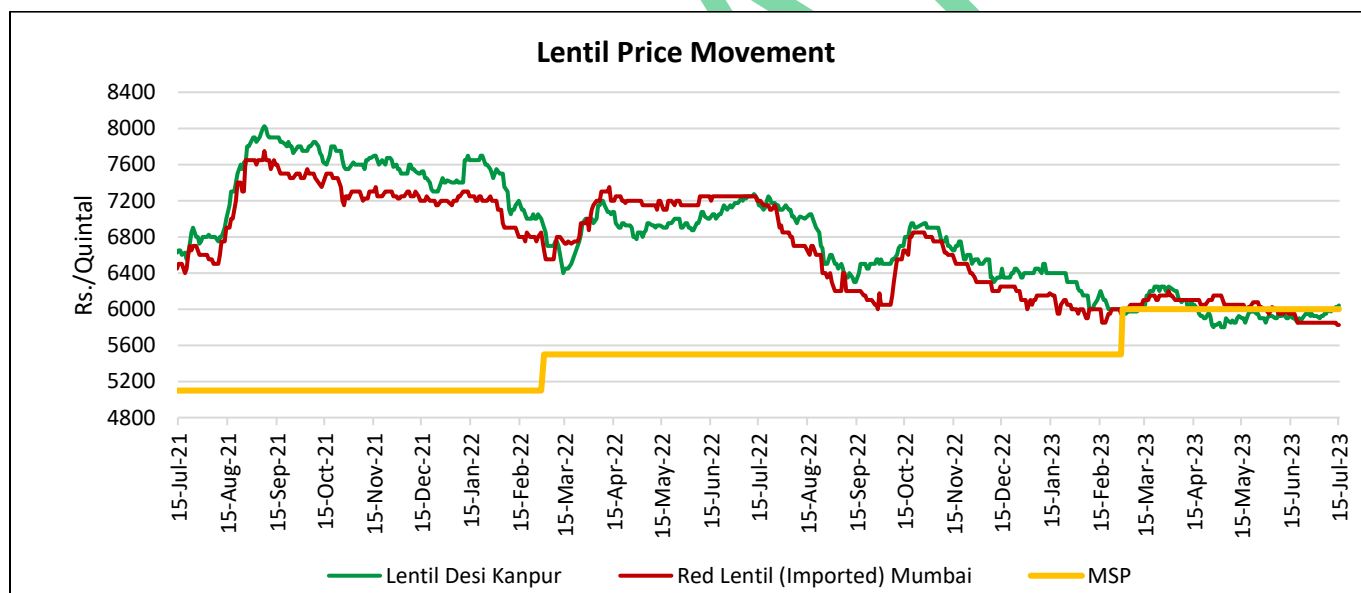

Lentils (Masoor):
Market Recap:

With the exception of imported Canadian origin Lentils in Mumbai, other major benchmark markets experienced a firm trading trend, rising by an average of 1-2%. This increase can be attributed to improved demand and the anticipation that the ongoing workers' strike at the West Coast of Canada may hinder the export of Pulses, particularly Lentils, from the country. However, it is unlikely that there will be a sudden and significant spike in prices due to the current supply glut caused by higher imports. Nonetheless, trade sentiments are expected to remain strong in the coming days, and prices may fluctuate within a range of +/- INR 100 per quintal. According to official records, India has already imported 461,000 metric tons of Lentils during the first five months of the current calendar year (January to May).

Lentil traded at INR 6025 per quintal, up by 1.26% in Kanpur and at INR 6075 per quintal in Indore while it traded down by 0.43% at INR 5825 per quintal in Mumbai.

Market Outlook: Prices may move in a range with slightly firm tone during the week.

Following graph illustrates Lentil price movement in different markets:

Lentil Prices (Rs./Quintal)					
Markets	Current	Week Ago	Month Ago	Year Ago	% Ch. Over
	14-07-2023	07-07-2023	14-06-2023	14-07-2022	07-07-2023
