

Domestic Fundamentals:

- Mentha oil showed steady trade on spot markets on Saturday.
- Overall crop size is 25 percent lower than last year and market is likely to start firming up July onward. Major buyers like China, EU, Japan may enter into the market by the end of June by then prices would be at the lowest level around Rs 800 to Rs825 per kg.
- This year mentha coverage is likely to be down by around 20-25% from last year due to crop shift and also lower price realization in previous year. However, growing of mentha crop in some new area has minimized the impact of lower crop size in traditional area. Overall crop loss may not be more than 10 percent, a nominal phenomenon every year.

International Market Update:

- On a global front, mint consuming segments are shifting towards synthetic Mentha oil, wide price fluctuations in natural menthe have encouraged bulk consumer to reduce their use and turn to Synthetic one as it is cheaper to natural menthe.
- On a Week basis, the PVOI analysis reflects that the prices are falling along with the volumes while the open interest is slightly up. However, on an average basis, these three are on a weaker note and might result in a further fall in Mentha oil prices. Therefore, based on the above-mentioned market scenarios, Mentha oil prices are expected to continue in its negative bias in the short term.
- International quotes (FOB) for Mentha oil in Shanghai are in the range of USD 1540-1550/Quintal.

Domestic Market Outlook: Mentha Oil price is likely trade stay steady to slightly weak.
