

CBOT Soymeal recovered nearly \$8 per short tons after clocking multiweek lows. CBOT meal gained for last two sessions as was trading flat today till the time reported on lack of fresh fundamental cues.

- Mustard is currently helping itself to find bearishness from Soybean and currently hesitating to go above the difference of INR 830 to 840 on upside and correcting the spreads thereafter towards 720 to 740. In present scenario any bearish move in soybean will also help mustard to fall, unseasonal.
