

CBOT Soymeal traded low in yester session taki ng cues from bearishness in Soybean. CBOT meal was trading flat today till the time reported on lack of fresh fundamental cues.

- Mustard is currently helping itself to find bearishness from Soybean and currently hesitating to go above the difference of INR 830 to 840 on upside and correcting the spreads thereafter towards 720 to 740. In present scenario any bearish move in soybean will also help mustard to fall, unseasonal.
