Soy meal (Indore) traded weak on Monday at Rs 25,500/MT vs Rs 26,000/MT previous day.

In an important development China removed ban on imports of rapeseed meal from India. Imports could resume from Monday subject to Chinese quarantine norms. China put ban on imports of rapeseed meal from India in 2011. This opens big market for Indian rapeseed meal.

Market is expecting removal of import ban on imports of soy meal from China.

Allowing various meals imports from India is due to US and China trade dispute which has led China to diversify its protein source away from US.

Physical soymeal prices have fell over fall in domestic soybean prices.

- Soymeal price is expected to be bottomed out for the season as prospects of robust export booking is going to help India to dispose most of the surplus stocks by Jan next year.
- China has also booked its first consignments of soymeal since 2011. With Iran too in the pipeline to buy Indian soymeal India is betting for record exports in coming months.
- There has been again problem of limited availability of railway rakes for soymeal exports done through land in Bangladesh and Nepal.
- Indian soymeal prices are competitive in market and given the distance advantage SE Asian nations is also expected to book heavily for immediate deliveries
