

Cash soymeal remained flat at different market centers. CBOT soymeal was also trading sideways in the early trade today.

- The total sown area under rabi oilseeds, as on 30th November 2018, is higher compared to the previous year's level which is up by 10.21% at 63.14 lakh hectares compared to 62.90 lakh hectares during the corresponding period last year.
- Indian soymeal has gained premium in last two weeks and such situation has the potential to restrict export queries. Argentinean meal has not been able to find any upward push as the CBOT meal is now relatively at discount over the bean as US soymeal stock rises.
