- As per NOPA recent data, NOPA members have crushed total 175.39 million bushels of Soybeans in October 2019 which is higher than 152.56 million bushels in September 2019 on account of harvesting period of time. It is also higher from 172.34 million bushels in October 2018. However, crushing margin is lower because of higher soybean prices in U.S. Crushers have faced less competition for beans from exporters. Soybean oil stocks declined to 1.423 billion pounds at the end of October against 1.442 billion pounds in last month and 1.503 billion pounds at the end of October 2018. Soymeal exports has been reported higher in October 2019 at 894,817 tons from 844,584 tons in September 2019 and 967,174 tons exported in October 2018.

The estimate is lower from 7.7 million tonnes in Oct month estimates due to less lower supplies of Soybean in this season. Domestic consumption is forecast at 5.35 million tonnes for this season higher from 5.2 million tonnes in previous year record however it is lower from previous month record i.e. 5.8 million tonnes due to less demand.
- As per recent SEA report, India shipped Oilmeals lower by 64% to 126,128 tons in November 2019 against 353,405 tons in September 2018. The overall export of oilmeals during April-Nov. 2019 is reported at 1,652,599 tons compared to 2,086,321 tons in April-Nov.2018 i.e. down by 21%. This is mainly due to disparity in export of oilmeals, specifically soybean meal due to higher MSP of beans which makes the domestic soybean meal expensive in international market compared to other origin. However, the export of castor seed meal has increased to 431,692 against 275,281 tons.
