

Soy Meal Fundamentals: Steady to weak tone are seen in soymeal markets amid mixed sentiments today. Declining bird flu cases are also a support for soymeal market.

As per sources, India has shipped higher soymeal in January 2021. The soymeal exports are recorded significantly higher by 484% year on year to 336,390 tonnes against last season after robust demand from overseas markets (European and Asian buyers). France, Germany, Indonesia and Bangladesh were the major buyers. India exported total 950,134 tonnes in the first four month of 2021/21 marketing year. The exports is likely to rise more than 2 million tonnes in 2020/21 against 825,000 tonnes in last season.

As per Refinitiv commodity research, the export of soymeal in Argentina went up by 38% in January 2021 against the previous year's record. The shipment of soy oil also increased and touched the level of 477 thousand tons, the highest January export since 2017. However, the export may fall in the coming month once the harvesting will start in Brazil and buyers may switch to the Brazilian soybean crop.

The Argentine soymeal prices have got dearer in last couple of months due to lean season, this has narrowed down the price spread of India vs Argentina, opening some exports window for India.

- India's December 2020 soymeal exports improved by +248% to 2,51,221 metric tonnes compared to 72,233 metric tonnes in the same period last year. Further, the soymeal shipments improved by +56% to 8,88,202 metric tonnes in aggregate, during the last eight months (Apr.-Dec.) of financial year 2020-21 compared to 5,69,349 metric tonnes during the corresponding period last year.
- India's export of oilmeals for the month of December 2020 is reported at 5,12,997 metric tonnes compared to 2,20,404 metric tonnes in December 2019 i.e. up by +13%.
- The overall export of oilmeals during April to December 2020 is also reported up by +26% at 24,61,696 metric tonnes compared to 19,55,276 metric tonnes during the same period last year.
- Of the total soymeal exports of 2,51,221 metric tonnes in December 2020, Bangladesh, Iran and US remained to top buyers with imports figures touching 43,794 metric tonnes, 42,000 metric tonnes and 26,051 metric tonnes respectively..
- In spite of tough competition in world market, export of rapeseed meal and ricebran extraction performed well, during the last eight months of financial year 2020-21.
- India's exports for rapeseed meal during April-December 2020 was up +24% at 9,16,715 metric tonnes compared to 7,41,199 metric tonnes during the same period previous marketing season.
- The export of rapeseed meal in December'20 is reported at 1,41,866 metric tonnes against last year 60,178 metric tonnes during the same period i.e. up by +136%, and ricebran extraction is reported at 59,470 metric tonnes against last year 43,891 metric tonnes i.e. +35% higher compared to the same period last year.
- The global soy outlook is bullish as the Latin America is hit by poor weather conditions, downward revision of the US 2020/21 crop which have been recently harvested and strong Chinese soy demand.

Soy DOC Rates at Different Centers
