

**Soy Meal Fundamentals:** Soymeal prices remained flat on steady domestic soymeal demand and persistent overseas export sales.

*Improved overseas demand in soymeal in last couple of months and firm global market remained supportive for the meal to some extent in recent while. Overall slack in poultry consumption due to COVID pandemic has hit the local soymeal demand. We expect the poultry demand to gradually improve in coming days.*

*The Argentine soymeal prices have got dearer in last couple of months due to lean season, this has narrowed down the price spread of India vs Argentina, opening more exports window for India.*

- *India's January 2021 soymeal exports improved by +579% to 28,3167 metric tonnes compared to 41,726 metric tonnes in the same period last year. Further, the soymeal shipments improved by +92% to 11,71,369 metric tonnes in aggregate, during the last nine months (Apr.-Jan.) of financial year 2020-21 compared to 61,1075 metric tonnes during the corresponding period last year.*
- *India's export of oilmeals for the month of January 2021 is reported at 4,98,060 metric tonnes compared to 1,69,397 metric tonnes in January 2020 i.e. up by +194%.*
- *The overall export of oilmeals during April to January 2021 is also reported up by +39% at 29,62,680 metric tonnes compared to 21,27,635 metric tonnes during the same period last year.*
- *Of the total soymeal exports of 28,3167 metric tonnes in January 2021, Germany, Indonesia and US remained to top buyers with imports figures touching 92,037 metric tonnes, 60,770 metric tonnes and 22,617 metric tonnes respectively.*
- *India's exports for rapeseed meal during April-January 2021 was down +18% at 9,90,955 metric tonnes compared to 8,39,197 metric tonnes during the same period previous marketing season.*
- *The export of rapeseed meal in January'21 is reported at 74,240 metric tonnes against last year 97,998 metric tonnes during the same period i.e. down by-24%, and ricebran extraction exports is reported at 89,776 metric tonnes against last year 15,925 metric tonnes i.e. +464% higher compared to the same period last year.*
- *The global soy outlook is bullish as the Latin America is hit by dry weather conditions, downward revision of the US 2020/21 crop which have been recently harvested and strong Chinese soy demand.*

Soy DOC Rates at Different Centers			
Centres	Ex-factory rates (Rs/ton)
