Soy Meal Fundamentals: Firm sentiments witnessed in the soymeal prices mainly on strong overseas meal demand. Further, good exports enquiries will continue to lend support to the market.

Improved overseas demand in soymeal in last couple of months and firm global market remained supportive for the meal to some extent in recent while. Overall slack in poultry consumption due to COVID pandemic has hit the local soymeal demand. We expect the poultry demand to gradually improve in coming days.

The Argentine soymeal prices have got dearer in last couple of months due to lean season, this has narrowed down the price spread of India vs Argentina, opening more exports window for India.

- India's January 2021 soymeal exports improved by +579% to 28,3167 metric tonnes compared to 41,726 metric tonnes in the same period last year. - The overall export of oilmeals during April to January 2021 is also reported up by +39% at 29,62,680 metric tonnes compared to 21,27,635 metric tonnes during the same period last year.
