

Soy Meal Fundamentals: Soymeal continued upward movement on strong demand from the feed manufacturers and good export sale. Continued overseas meal demand will continue to support soymeal prices at the higher levels.

Improved overseas demand in soymeal in last couple of months and firm global market remained supportive for the meal to some extent in recent while. We expect the poultry demand to further recover in coming days.

The Argentine soymeal prices have got dearer in last couple of months due to lean season, this has narrowed down the price spread of India vs Argentina, opening more exports window for India.
