**Soy Meal Fundamentals:** Soymeal fell on dull demand at the current higher ruling prices. The soymeal prices skyrocketed along with soybean in recent week to the levels where domestic demand was hit. However, the March oilmeal exports figures, including soymeal remained quite strong, pointing out to be bullish scenario in coming days too. This will also limit the losses in near-term

Improved overseas demand in soymeal in last couple of months and firm global market remained supportive for the meal to some extent in recent while. We expect the poultry demand to further recover in coming days.
