

Soy Meal Fundamentals: Soymeal price witnessed sharp surge in the domestic market at different trading centers amid firm trading activities, strength in soybean and other oilseed complex supported soymeal prices.

- Officials in Argentina's Sante Fe province have ordered mandatory talks between protesting port workers and companies to try and end a ports blockage that is preventing grain shipments. Workers represented by the UOCRA union demand that construction companies serving agro-export companies pay higher wages at the port facilities. Argentina is the world's top exporter of soybean meal and a major international soybean.
- World 2021/22 soymeal production is estimated higher at 260.62 million tonnes vs 253.12 million tonnes against last year record, in USDA July report.
- India's June 2021 soymeal exports declined by 54% to 25,918 metric tonnes compared to 56,938 metric tonnes in the same period last year. Further, the soymeal shipments too declined by 9% to 118,057 metric tonnes in aggregate, during the months (April-June.) of financial year 2020-21 compared to 129,192 metric tonnes during the corresponding period last year.
- Export of oilmeals for the month of June 2021 provisionally reported at 203,612 tons compared to 229,230 tons in June 2020 i.e. down by 11%. The overall export of oilmeals during April – June 2021 is reported at 735,312 tons compared to 579,387 tons i.e. up by 27%.
- Soya meal prices jumped in early July and touched record price of US\$ 890 during 2nd week of July compared to US\$ 400 (FOB) Argentina. Indian soybean meal export during first quarter was over 120,000 tons mainly shipped to Europe and U.S.A. due to preference for Non GM Soymeal. However, India is now totally outpriced in world market for the export of soyameal as soybean average price jumped from Rs. 43,100 per tons in Nov'20 touched to Rs.76,000 per tons in July and so soymeal price gone up from Rs.36,100 per tons in Nov'20 to Rs. 65,000 per tons at present. The high price of soybean meal has hit not only the export of soymeal but also the poultry farmers mainly small farmers and finding very difficult to survive in this difficult time. High input cost for eggs and chicken has also escalated the chicken prices which affecting consumer. India's exports for rapeseed meal during April-May 2021 was up +66% at 274,692 metric tonnes compared to 165,737 metric tonnes during the same period previous marketing season. It's a high time that the Government may consider to allow import of soybean meal including GM varieties which does not pose quarantine issue for short period up to 30th Sept, 2021 to cool down prices of both soybean and soybean meal to support the poultry industry to face crisis time.
