

**Soy Meal Fundamentals:** Soymeal price slumped in the domestic market at different trading centers amid government decision to allow import of GM soymeal, Additionally weakness in soybean and other oilseed complex dragged soymeal prices.

- Soymeal prices slumped on meal import talk; drags Soy oil, Mustard. With the poultry industry hit badly due to rising feed meal prices, the Central government is all set to allow import of 1.2-1.5 million tonnes of genetically modified soymeal.
- Officials in Argentina's Sante Fe province have ordered mandatory talks between protesting port workers and companies to try and end a ports blockage that is preventing grain shipments, Workers represented by the UOCRA union demand that construction companies serving agro-export companies pay higher wages at the port facilities. Argentina is the world's top exporter of soybean meal and a major international soybean.
- World 2021/22 soymeal production is estimated higher at 260.62 million tonnes vs 253.12 million tonnes against last year record, in USDA July report.
- India's June 2021 soymeal exports declined by 54% to 25,918 metric tonnes compared to 56,938 metric tonnes in the same period last year. Further, the soymeal shipments too declined by 9% to 118,057 metric tonnes in aggregate, during the months (April-June.) of financial year 2020-21 compared to 129,192 metric tonnes during the corresponding period last year.
