

Soy Meal Fundamentals: Soymeal price remained elevated in the domestic market at different trading centers following the strength in soybean prices amid government decision to allow import of GM soymeal, However there is no official notification from government yet. Additionally prices in other oilseed complex is likely to impact soymeal prices.

Vietnam is eyeing on the government mulling for GM-soymeal import, sources said.

As India's soymeal export have been dropped drastically, domestic industry is feeling pinch due to the shortage, following that Indian government is mulling to import 1.5 mmt of GM soymeal to meet the shortage in the country strictly for feed purpose. It is affecting poultry, fish, shrimp and cattle farmers as they are facing margin pressure due to the increased cost of raw materials, However they are looking for other substitute such as guar.

- Soymeal prices corrected on meal import talk; drags Soy oil, Mustard. With the poultry industry hit badly due to rising feed meal prices, the Central government is all set to allow import of 1.2-1.5 million tonnes of genetically modified soymeal.
- Officials in Argentina's Sante Fe providence have ordered mandatory talks between protesting port workers and companies to try and end a ports blockage that is preventing grain shipments, Workers represented by the UOCRA union demand that construction companies serving agro-export companies pay higher wages at the port facilities. Argentina is the world's top exporter of soybean meal and a major international soybean.
