### Soy Meal Fundamentals:

**Todays Update-** Soymeal Indore prices traded with weak sentiments at 50,000/ MT amid soymeal import. However, In other markets traded with steady to weak sentiments. Soymeal prices in domestic market expected to trade range bound with weak bias between 48,000-55,000 in near term tracking Soymeal import.

### Previous Update

•According to Solvent Extractor Association of India, country's April'2022 soymeal exports declined by 36% to 25,265 metric tonne compared to 39,705 metric tonne in the same period last year.

•Additionally, export of oilmeals for the month of April'2022 provisionally reported at 3,33,972 tonne compared to 3,03,705 tonne last year same period i.e. up by 10%.

•The export of rapeseed meal in April'22 is reported at 2,29,207 metric tonnes against 1,77,822 metric tonnes during the last year same period i.e., up by 29%. Rapeseed meal export is picking up on new crop crushing and firm export demand.

USDA in its May'22 report, India's 2022-23 Soymeal production is estimated at 81.6 Lakh tonnes as compared to 81.6 Lakh tonnes in 2021-22. Soymeal export is estimated at 19 Lakh tonnes in 2022-23 Vs 21 Lakh tonnes in 2021-22.

Month ended April'22, FOB Argentina monthly average prices remained at USD 516/ MT as compared to previous month at USD 548/MT. India's FAS Kandla soymeal price went up to USD 837 /MT as compared to USD 837/MT previous month. Soymeal FAS Kandla is still outpriced to FOB Argentina by USD 321/MT compared to previous month at USD 289/MT. Usually, FAS Kandla trades slightly higher than other GM soymeal but price difference between Indian soymeal and Argentina soymeal soared to \$743 in Aug'21 and USD 670 in Sept'21. India's Soymeal export is likely to remain weak for the next few months due to non-competitive prices in global markets. However spread between SBM FAS kandla and FOB SBM Argentina is expected to shrink on correction in Indian Soymeal prices.

The Ministry of Consumer, Food and Public Distribution, has allowed import of GM soya mills for balance quantity of 5.50 lakh tonnes out of the estimated 12 lakh metric tonnes of August 2021 till 30 September 2022, reviewing the imported quantity and domestic prices at regular intervals. Necessary clearances etc. should be

2 June, 2022

obtained by Animal Husbandry and Dairying Department and DGFT notification can take care of operational aspects, with the effect of this, soya meal is likely to trade with weak bias.

According to the Cordoba Grain Exchange, Argentina's soybean grinding jumped 9% on the prior season to 41.03 million mt in the marketing year which runs from April 2021 until March 2022, record high soy oil prices boosted bean processing.

- Crush to arrival ratio in March'22 stood at 108% as compared to previous month at 93%. It is inferred that old stocks is being crushed in March.
- According to Soybean Processors Association of India, March'22 crushing stood 24% lower at 6.5 lakh tonne as compared to 8.5 lakh tonne previous year same period. While soybean crushing till March this Oil Year was low by 35% at 40.5 lakh tonne compared to 62.5 lakh tonne previous year. Additionally, soymeal production is expected to be lower at 32.34 lakh tonne in the ongoing Oil Year compared to 49.89 lakh tonne previous year. We expect lower crushing in April too on low export demand and tight crush margin.
