

### Soy Meal Fundamentals:

**Today's Update-** Soymeal Indore prices went marginally down by 0.5% to INR 43,300/MT as compared to previous day. Year-to-date Soymeal prices are up by 1.9%. Soymeal prices in the domestic market are expected to trade range bound with weak bias in the range of 42,000-45,000 in near term tracking good export demand, However, increase in spread between Ex-kandla and Ex-Rotterdam prices may weigh on prices.

As per Latest USDA June '23 report India's 2023-24 Rapeseed meal export is estimated at 9 Lakh tonnes as compared to 14 Lakh tonnes in 2022-23. However, Rapeseed crush for the year 2023-24 is estimated at 102 Lakh tonnes Vs 103 Lakh tonnes in the year 2022-23. Additionally, domestic consumption for the year 2023-24 is estimated at 50.20 Lakh tonnes Vs 49 Lakh tonnes for the year 2022-23.

As per latest USDA report Argentina's soybean meal exports for the year 2022-23 reduced to 21.1 MMT Vs Previous month estimates at 22.2 MMT amid Lower exportable supplies on reduced crush. And for the year 2023-24 too, Argentina's soy meal exports reduced to 24.3 MMT as compared to 24.7 MMT previous month amid Lower exportable supplies on reduced crush.

Between August 2021 and October 2021, the prices of Ex-Kandla Soymeal reached a record high of US\$ 1235/ton, which was 152% higher than the Ex-Rotterdam prices at US\$ 472. As a result, India's Soymeal exports decreased. However, in the six-month period between September 2022 and March 2023, the Ex-Kandla prices dropped below those of Ex-Rotterdam, which encouraged exports from India. India has several advantages over Argentina in Soymeal exports, including lower freight charges, the option to export in smaller quantities, the preference for non-GMO Indian soymeal by some European countries and the USA, and the depreciation of the rupee, which boosts overall exports.
