## **Oilseeds Domestic Fundamentals:**

Soybean (plant delivery, Indore) prices continued downward movement on weak buying by the processors. Besides, bearish international supply scenario and expected higher estimated global soybean stock pressured the domestic market. Recent rains over Argentina remained bearish. Besides, RM seed prices too fell in tandem with soybean with higher output estimates owing to rise in the planted acreage. Soybean arrivals in Madhya Pradesh were reported steady at 125,000 bags compared to the previous day. However, the RM seed arrivals in Rajasthan were reported higher at 40,000 bags compared to 35,000 bags on Wednesday and all India RM seed supplies at 83000 bags compared to 65,000 bags previous day.

## International Oilseeds Fundamentals:

Informa Economics has pegged the 2013-14 US soybeans harvest at 3.329 billion bushels and the yield at 44.0 bushels per acre, up from its previous estimates of 3.298 billion bushels and 43.3 bushels per acre. IMEA has reported that farmers in Brazil's Mato Grosso region have done forward selling of 48% on their new crop soybeans, lower than 67% this time a year ago. Informa cut their soybean production forecast for Argentina by 2 million tons to 57.5 million tons.

#### **Outlook:**
