

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices extended losses on poor buying by the solvent extractors. Again, bearish global supply scenario with record Brazil and Argentine soybean continued to pressure the domestic market. Besides, RM seed prices featured steady to weak tone pressured by reports of higher planting acreage this year. However, reports of record Chinese soybean imports and increase in import duty in refined oil to 10% from 7.5 earlier remained bullish for oilseeds. Soybean arrivals in Madhya Pradesh fell and was reported at 100000 bags compared to 125,000 bags previous day. However, the RM seed arrivals in Rajasthan were reported steady at 40,000 bags and so the all India RM seed supplies at 83000 bags compared to previous day.

International Oilseeds Fundamentals:

China imported 63.38 million tonnes of soy in 2013, a rise of 8.6 percent from the year before, preliminary data from the General Administration of Customs. December imports jumped 26% on the year to 7.4 Mn T, the highest ever monthly volume, as improved crushing margins spurred demand.

Outlook:

Soybean (plant delivery) prices are expected to continue with the weak trend. The Indore (Plant Delivery) prices are expected to witness 3690-3770 levels in the near term.
